It's important that Cubs are involved in packing their kit; not only does it mean they know what they have brought with them and where to find it, it also means that they recognise which items belong to them when we find them lying around the camp!

Please use a rucksack or holdall to pack kit; suitcases are not suitable for use in tents. Lining luggage with waterproof sacks helps to ensure that it remains dry.

Parent involvement is expected please to ensure scouts do not bring mobile phones, iPads, electronic games or other electronic devices – these are easily damaged, dropped or soaked & we cannot take any responsibility for these items.
